Austin Water - Wastewater Utility Operating Fund	Fee	Note
Utility Charges/Rates		
A. Wastewater Service Rates		
<i>For all bills rendered on or after November 1, 2021, these rates are applicable to all service for wastewater treatment to retail customers served by the City of Austin. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge for retail customers will be based on their wastewater average.</i>		
Wastewater Service Rates for Retail Customers:		
Existing Customers		
(A) Retail Customers with Water Service		
<i>These rates are applicable to all retail customers who have metered water connections. Wastewater billing is based on the average water usage during the designated three (3) month wastewater averaging period; or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. If there is zero usage for two or all three months of the averaging period, a default wastewater average of 5,000 gallons will be assigned for residential customers until the next wastewater averaging period. For all other retail customers if there is zero usage for two or all three months of the averaging period, the monthly wastewater volume will be based on actual metered water usage monthly until the next wastewater averaging period.</i>		
(B) Wastewater Billing for Domestic Alternate Water Sources		
<i>Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.</i>		
(C) Non-Residential Customers with associated Irrigation Meters (Multifamily, Commercial, Large Volume and Wholesale)		
<i>For those non-residential customers that have a separate City of Austin irrigation water meter for irrigation or alternative irrigation water source on the property other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base wastewater billing for domestic usage on actual monthly water consumption. Any property that has an irrigation meter requirement will base wastewater billing for domestic usage on actual monthly water consumption.</i>		
(D) Non-Residential Customers without irrigation needs or requirements on the property		
<i>Non-Residential Customers without irrigation needs or requirements on the property will base wastewater billing for domestic usage on actual monthly water consumption.</i>		
(E) Criteria and procedures for existing Commercial customers to qualify as a Large-Volume customer		
Criteria		
<i>An existing commercial customer of Austin Water must purchase more than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption to determine if any existing customers have exceeded the 85.0 million gallon level.</i>		
Procedures		

FY 2022-23 Fee Schedule

Austin Water - Wastewater Utility Operating Fund	Fee	Note
<i>Upon verification of the 85.0 million gallon purchase or consumption requirement in fiscal year one, Austin Water will include this customer as a large volume customer in its next rate setting cycle. The next rate setting cycle is during fiscal year two, and will set rates that are to be effective November 1 of fiscal year three. Austin Water will verify the water consumption in fiscal year two, before the rate change on November 1 of fiscal year three, to determine if the commercial customer has maintained the 85.0 million gallon water consumption level for the second consecutive fiscal year. If the commercial customer maintains the 85.0 million gallon level, the City will change the rates for the commercial customer to the large volume customer rates on November 1 of fiscal year three. The City will bill the commercial customer for water consumption after the November 1 rate change at the new large volume rate. The City will give no credit for water consumption in the qualifying fiscal years before the November 1 rate change. If the customer does not maintain the 85.0 million gallon level in the second fiscal year, the customer will remain at commercial class rates.</i>		
(F) Criteria and procedures for existing Large Volume customers with reduced volume		
Criteria		
<i>An existing Large Volume customer of Austin Water purchases less than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption for all existing large volume customers to determine whether the minimum 85.0 million gallon level has been met.</i>		
Procedures		
<i>Upon verification of fiscal year water use below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing of the shortfall. If the customer falls below the 85.0 million gallon level for a second consecutive year, a second notice will be sent notifying the customer that they will be converted to the commercial class during the November billing cycle of that same year. Once a customer has lost industrial status, the criteria and procedures for an existing commercial customer to qualify as a large volume/industrial customer will be followed. Large volume customers that have implemented Austin Water approved conservation initiatives that causes their water consumption to fall below the 85 million gallons threshold may continue to receive the large volume rate provided that the annual water consumption remains above 65 million gallons and the reduced usage does not create a peaking factor that would be greater than the commercial class peaking factor.</i>		
(G) Existing Large Volume Customers with Major Process Changes		
Criteria		
<i>An existing Large-Volume customer of Austin Water who has major process changes (e.g. sells off parts of the company, business changes with lower use projections, etc.) and the original business plans to purchase less than 85.0 million gallons of the water during a fiscal year that is between October 1 and September 30 at a single service address or campus.</i>		
Procedures		
<i>Upon notification of a major process change that reduces water use projections below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing that they will be converted to the commercial class on the billing cycle following the verification of the actual process change in which water use is reduced.</i>		
New Customers		

FY 2022-23 Fee Schedule

Austin Water - Wastewater Utility Operating Fund	Fee	Note
(A) Residential <i>The City will impute a wastewater average of 5,000 gallons to new residential accounts until they have established a wastewater average. The Director of the Austin Water Utility or the Director's designee has the discretion to adjust the 5,000 gallon average when the customer has had an established wastewater average at another City of Austin service address.</i> (B) Non-Residential Customers without irrigation meter(s) (Multifamily, Commercial, Large Volume and Wholesale) <i>(1) Except as provided by subsection (2), if a non-residential customer establishes a new account at a service location where an earlier account established a wastewater average, the City will use the earlier wastewater average for wastewater service billing purposes until the new account establishes its own wastewater average.</i> <i>(2) If in the judgment of the Director of the Austin Water Utility or the Director's designee, the new customer will place a substantially different demand on the wastewater collection and treatment system, the City will bill the new non-residential customer for wastewater service based on actual metered water consumption until the new non-residential customer has established a wastewater average.</i> (C) Wastewater Billing for Domestic Alternate Water Sources. <i>Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required.</i> (D) Non-residential Customers with associated Irrigation Meters. (Multifamily, Commercial, Large Volume and Wholesale) <i>If a new non-residential customer has installed a separate City water irrigation meter or alternative irrigation water source on the property, other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base the new customer's wastewater billing for domestic usage on actual monthly water consumption.</i> (E) Criteria and Procedures for new Large-Volume Customers Criteria <i>New large volume customers that have requested connection to the water and wastewater system must submit water use projections to Austin Water as part of the service extension process. Austin Water will review the water use projections to verify that the customer would consume more than 85.0 million gallons within a fiscal year at a single service address or campus.</i> Procedures <i>After the customer has provided Austin Water with water use projections, Austin Water will verify and approve the projections. On approval, the City will classify the customer as a large volume customer and charge the appropriate rate upon connection to the City's water and wastewater system. If Austin Water does not approve the customer's water use projections as being above the 85.0 million gallon level, the City will classify the customer appropriately.</i>	\$10.30	
Retail Monthly Customer Charges: <i>Customers will be assessed a retail monthly charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period. Participants in the Customer Assistance Program (CAP) qualify for a waiver of the monthly customer charge.</i>

Wastewater Service Rates for Wholesale Customers:		
<i>(A) Application. For all bills and charges rendered on or after November 1, 2021, the City will charge the following rates for wholesale customers.</i>		
<i>These charges are applicable to wholesale wastewater service customers of the City of Austin who are water districts, municipal utility districts, or other utilities which have metered water connections. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge will be based on the average water usage during the designated three (3) month wastewater averaging period, or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. For new customers who have not established an average water usage during the December, January, and February billing period, the City will use the actual water consumption figure or the measured sewage volume to establish the wastewater billing.</i>		
<i>(B) New Customers. The volume rate for any wholesale customer that is not listed above will be based on a weighted cost of service average of all Wholesale customers. That rate will remain in effect until the new customer establishes a full 12 month's consumption history. After that time, the Austin Water Utility will establish an individual rate and seek approval of that rate by the City Council.</i>

Austin Water - Wastewater Utility Operating Fund	Fee	Note
<i>Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs, transportation and equipment costs, materials and supplies costs, plus indirect and overhead costs for the connection.</i> <i>If the facility requiring wastewater service consist of more than fifteen living units (including, but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required, the charge shall be calculated on a cost basis.</i>		
Connections and Manholes		
The fees for wastewater connections and manholes performed by the City are as follows:		
Connection Size-Location		
6-inch or less-Zone 1-East	\$446.80 \$464.65	
6-inch or less-Zone 2-Central	\$519.75 \$540.55	
6-inch or less-Zone 3-West	\$593.70 \$617.45	
Descaling Permit Fee	\$726.45 \$755.50	
<i>Annual fee used to recoup the costs incurred in performing the tasks associated with regulating companies performing temporary descaling activities in the City of Austin's water service area (e.g., analyzing and documenting plans, specifications, applications and reports, monitoring and inspecting sites where temporary descaling activities have been authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements. This annual Descaling Permit Fee is prorated by quarter if the descaling company is in its first year of operation. Subsequent years of operations are charged at the full annual rate.</i>		
Evaporative Loss Credit Application and Processing Fee	\$297.70 \$216.00	
<i>Non-refundable application and processing fee; customer is responsible for reporting timely and accurate meter readings each month. If customer reports an erroneous meter read or fails to meet the monthly reporting deadline, the Utility can waive the deadline for three instances in a twelve month period.</i>		
Industrial Waste Surcharge		
Surcharge unit charges in dollars per pound		
Ammonia-Nitrogen	\$1.641 \$1.805	
<i>Rate is \$1.641 \$1.805 per pound of ammonia-nitrogen discharged into Austin Water's wastewater system by an Industrial User when the ammonia-nitrogen concentration is in excess of 35 mg/l. The surcharge fee for ammonia nitrogen will be charged to an Industrial User that uses or produces ammonia-nitrogen in a manufacturing process. The surcharge fee for ammonia-nitrogen will be determined by calculating the difference between the average concentrations discharged from such an Industrial User and the 35 mg/l threshold as described in the formula below:</i>		
<i>Surcharge fee for ammonia-nitrogen = Volume of wastewater discharged (in millions of gallons) X 8.34 pounds per gallon x [\$1.559 \$1.805 per pound x (Industrial User's average ammonia-nitrogen (in mg/l) - 35 mg/l)]. The current rate became effective 6/3/2019 11/01/2022</i>

Grow Green Landscape Professional Training (GGLPT)	\$20.00	per day

FY 2022-23 Fee Schedule

Watershed Protection	Fee	Note
<i>The themes, specific topics and speakers for each of the four days of training are determined by the Grow Green Team, an interdepartmental collaboration lead by WPD and involving staff from departments that have outreach programs related to landscape and sustainability topics (i.e. WPD – demonstration gardens, pesticide use, stormwater controls, earth-wise landscape management; Austin Water - water conservation; PARD - demonstration gardens, Wildlands, invasive species; Austin Resource Recovery - composting, etc.). City facilities are used for free or a minimal rental fee. City staff, representatives from like-minded non-profits and businesses teach the classes. There are some minor costs for administrative materials like nametags. We have provided coffee in the mornings at past trainings so I would like to maintain that practice.</i> <i>The administrative costs were determined based on past experience of putting on these trainings. For staff speaker costs, job titles of anticipated speakers were used and the hourly rate was determined using the mid-range for that position.</i> <i>\$20/day with a small discount if people registered for all 4 classes i.e. \$75 versus \$80</i>

<i>A credit of up to a 50% reduction in the square feet of impervious cover may be provided for voluntary stormwater control measures as established by administrative rule.</i> <i>Fee (all properties) = Impervious Cover (sqft) X Monthly Base Rate X Adjustment Factor</i> <i>Monthly Base Rate: \$0.00498 per square foot of impervious cover.</i> <i>% of Impervious Cover = Impervious Cover / Property Size</i> <i>Adjustment Factor (AF) unique to each property:</i> <i>AF = (1.5425 x % Impervious cover) + 0.1933</i> <i>Monthly Drainage Charge = % Impervious Cover x Monthly Base Rate x Adjustment Factor</i> Regional Stormwater Management Participation Fees (RSMP) <i>Each Regional Stormwater Management Program (RSMP) agreement is mutually exclusive. No credit will be given for impervious cover paid for in previous RSMP agreements for subsequent phases of development. However, applicants may combine all related phases of a development into one RSMP agreement and remit the associated total payment at the time the permit for the first phase is approved.</i> <i>NOTE: Requirements for participation in the Regional Stormwater Management Program are located in Section 8.2.2 of the Drainage Criteria Manual. The RSMP payment in lieu of detention consists of two components; the construction cost component (CCC) and the land cost component (LCC). The two components are calculated independently for single-family developments and multi-family / commercial developments. Below are the details of how to calculate the fees.</i> 1. RSMP Construction Cost Component (CCC) <i>The number of impervious acres is used to determine this part of the participation payment. The number of impervious acres is based on the maximum allowable impervious acreage as allowed by the more restrictive of zoning or watershed ordinance for subdivisions. Site plans may use the actual impervious cover for the site. For each fiscal year, the construction cost adjustment factor shall be recalculated in October as the ratio of the then current September ENR Construction Cost index divided by the September 2018 Construction Cost index. This new construction cost adjustment factor shall be applied to all participation payments collected during that fiscal year.</i> Commercial & Multi-family Residential Development <i>Number of Impervious Acres:</i> <table> <tr> <td>a) 0.00 - 1.00</td><td style="text-align: right;">\$129,000.00</td><td>per impervious acre</td></tr> <tr> <td>b) 1.01 - 2.00</td><td style="text-align: right;">\$70,000.00</td><td>per impervious acre</td></tr> <tr> <td>c) 2.01 - 5.00</td><td style="text-align: right;">\$44,000.00</td><td>per impervious acre</td></tr> <tr> <td>d) 5.01 - 10.00</td><td style="text-align: right;">\$29,000.00</td><td>per impervious acre</td></tr> <tr> <td>e) 10.01 - 20.00</td><td style="text-align: right;">\$20,000.00</td><td>per impervious acre</td></tr> <tr> <td>f) 20.01 - 50.00</td><td style="text-align: right;">\$12,000.00</td><td>per impervious acre</td></tr> <tr> <td>g) 50.01 - 100.00</td><td style="text-align: right;">\$8,000.00</td><td>per impervious acre</td></tr> <tr> <td>h) 100.01+</td><td style="text-align: right;">\$4,000.00</td><td>per impervious acre</td></tr> </table> Single-family Residential Development <i>Number of Impervious Acres:</i> <table> <tr> <td>a) 0.00 - 1.00</td><td style="text-align: right;">\$103,000.00</td><td>per impervious acre</td></tr> </table>			a) 0.00 - 1.00	\$129,000.00	per impervious acre	b) 1.01 - 2.00	\$70,000.00	per impervious acre	c) 2.01 - 5.00	\$44,000.00	per impervious acre	d) 5.01 - 10.00	\$29,000.00	per impervious acre	e) 10.01 - 20.00	\$20,000.00	per impervious acre	f) 20.01 - 50.00	\$12,000.00	per impervious acre	g) 50.01 - 100.00	\$8,000.00	per impervious acre	h) 100.01+	\$4,000.00	per impervious acre	a) 0.00 - 1.00	\$103,000.00	per impervious acre

2. RSMP Land Cost Component (LCC)

The land cost component (LCC) is calculated separately for each type of development, in conjunction with the construction cost component.

*LCC = 80% * (Appraised Land Value/ Appraised Land Area) * 5% * (Land Cost Area)*

Where:

*units are [\$/acre * acre = \$]
Land Cost per Acre = Appraisal District (appraised value /appraised area) x Land Cost Area*

Land Cost Area =

*New Development = Gross Site Area – Deductible Areas
Redevelopment = Limits of construction – Deductible Areas*

Deductible Areas = (Drainage Easements, Water Quality Easements, and Conservation Easements)

Note: Impervious cover areas within easements cannot be deducted from the land cost area.

Land costs will be based on the land valuation. This may be established by a certified appraiser or by Appraisal Districts. The RSMP applicant must provide the parcel identification number for each parcel within the proposed development prior to RSMP approval. Upon RSMP participation approval, the applicant must provide dated copies of either a certified appraisal or the appraisal district's valuation for each parcel within the proposed development.

Properties that are not appraised by Appraisal Districts, such as property owned by a governmental entity, may choose to use the capped land cost per acre values for RSMP participation. The land cost will be determined by the appraised value at the time of payment of the RSMP fee, not when the site is approved for participation in the RSMP. The effective date for Appraisal District valuations is the first of October for the current City of Austin fiscal year.

If a development encompasses more than one tax parcel, the land cost per acre will be based on the arithmetic mean of the land valuation from all parcels.

3. RSMP Total Cost = (CCC*ENR CCI AF) + (LCC*ICAF)

*Where CCC uses the proposed rate structures and units are [\$/acre (different rates) * acres = \$]*

ICAF = (1.5425 x percent [proposed total] impervious cover) + 0.1933

The impervious cover adjustment factor is from the Drainage Charge calculation and adjusts the land cost component down based on the total proposed impervious cover relative to the City's weighted average impervious cover (52.3%). If the impervious cover proposed for a site is greater than the City's weighted average, the ICAF will equal 1.

Watershed Protection	Fee	Note
<i>For sites that are in more than one watershed, the calculated RSMP fee will be apportioned by the percentage of the site in each watershed.</i> <i>For sites that have extremely high appraised land values, the calculated payment may be out of proportion with the approximate cost of on-site detention. Therefore, an overall cap of \$440,000 per acre of site area will be used for the calculation when it is determined that the calculated payment would exceed the amount calculated based on this per acre cost. As with the construction cost, this cap will be indexed annually based on the September ENR Construction Cost Index value.</i> <i>Single Family</i> <i>Low Density Development Discount</i> <i>The RSMP participation payment for low density developments is discounted based on the difference between the site impervious cover and the city-wide average impervious cover.</i> <i>Impervious Cover (IC) Adjustment Factor = $(1.5425 \times \text{Site IC}) + 0.1933$ (maximum value of 1.0)</i> <i>Maximum Payment Cap</i> <i>The RSMP participation payment is capped based on the estimated cost of underground detention for a site. The cost per acre for underground detention will be adjusted annually on October 1 based on the September Construction Cost Index as reported by Engineering News Record. The base cost per acre in 2021 dollars is \$440,000.00.</i> <i>Maximum Payment Amount = $(\\$440,000 \times \text{CCI Adjustment Factor}) \times \text{Site Area in acres}$</i> <i>Smart Housing</i> <i>For developments with certified affordable housing and Smart Housing designation, the RSMP payment will be discounted as described below provided the development meets the listed requirements</i> <i>a. For developments with 10%-50% affordable units, the RSMP payment would be discounted by the percentage of affordable units;</i> <i>b. For developments with over 50% affordable units, the RSMP payment will be discounted by 50%.</i> <i>Requirements for Smart Housing discount:</i> <i>1. Development is certified per the Smart Housing Program</i> <i>2. Development has an affordability term of 40 years or more</i> <i>3. Development has a restrictive covenant tying the affordability requirement to the property regardless of the ownership. The term of affordability will be listed in the restrictive covenant</i> <i>4. Termination of restrictive covenant would require approval by the City of Austin. Early termination would trigger a requirement to pay the remainder of the previously discounted amount based on the payment structure in effect at the time the restrictive covenant is terminated.</i> <i>Urban Forestry Replenishment Fund</i> <i>Tree mitigation to compensate trees removed for development.</i> <i>Off-Site Tree Planting Fee</i> <i>Urban Water Quality Structure Control Fund</i>
